Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 12/13/2006, with respect to the rejection(s) of claim(s) 12 and 13 under USC 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Matsuda et al. (5,647,034).

Allowable Subject Matter

1. Claims 2-4, 7-10, 15 and 19-22 allowed.
2. Claims 14 and 23 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 12 and 13 rejected under 35 U.S.C. 102(b) as being anticipated by Matsuda et al. (5,647,034).

Regarding Claim 12, Matsuda et al. disclose an operation displaying semiconductor switch where in Fig. 23. it is discloses a semiconductor device comprising

Art Unit: 2826

a pair of element loading portions 18/19 loaded with semiconductor elements 16 17 positioned one above the other within a light transmissive resin 12, a seal resin 13 sealing said pair of element loading portions within the light-transmitting resin, leads 14 connected to semiconductor element being exposed on seal resin, a photocoupler comprising a light emitting element 16 and a light sensitive element 17 that face each other wherein one of said pair of element loading portions is unbent element loading portion unbent within the light transmitting resin (Actually, both of the element loading portions are unbent inside the light transmissive resin, however, since the claim language does not have only/just/exactly one type of claim language, examiner choses to pick either element loading portions 18 or 19 to meet the claim language.)

Regarding Claim 13, light emitting element 16 is loaded on the unbent portion of element loading portion 18 within the transparent resin 12.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fazli Erdem whose telephone number is (571) 272-1914. The examiner can normally be reached on M - F 8:00 - 5:00.
